1. Upon further review, claim 30 is drawn to the elected invention. Roller 234 is disclosed as being horizontally movable. Thus, the advisory action mailed 13 July 05 is hereby withdrawn and the amendment received 11 May 05 has been entered. Since the final rejection mailed 18 January 05 did not optimally reject claim 30, this final rejection is withdrawn and prosecution was briefly re-opened, the result of which is the Examiner's Amendment below to place the case in condition for allowance.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Kramer on 19 July 05.

The application has been amended as follows:

At the end of claim 30, before the period, the following has been inserted;
--, an additional turnbar roller smaller in diameter than the first turnbar roller and associated with a third ribbon created at said slitting station, and take up rollers associated with said third ribbon for substantially duplicating the path length of the third ribbon relative to the first and second ribbons--.
